Stay home, save lives and have fun

Here are Blaze's top five things to do at home with your family this Easter:

- 1. Play a board game:** Everyone loves a board game, my favourite is Snakes and Ladders, what's yours?
- 2. Video call your family:** You might not be able to be with your whole family this Easter, but why not video call them for a chat and eat Easter eggs together?
- 3. Set yourself an Easter challenge:** Wherever you live, see if you can set yourself a challenge. How many laps of the garden can you run? Can you complete your toughest jigsaw puzzle in record time?
- 4. Get creative:** Easter is a great time to get crafting, just Google 'Easter crafts' and take your pick. An Easter basket? An Easter chick? A Blaze Bear with bunny ears? Ok, maybe not the last one.
- 5. Watch a family movie:** Draw the curtains, turn up the volume, grab the popcorn and sit down with your family to watch a great movie together.
